

VIA AIR
(Specify Air or Sea Pouch)

DISPATCH NO.

SECRET
CLASSIFICATION

TO :

DATE 27 May 1957

FROM : Chief of Station

SUBJECT { GENERAL Administrative/Personnel
SPECIFIC Education

1. The question has arisen relative to overseas education under the educational benefits of the Korean Bill.

2. The University of Maryland has extension courses for regular college credit. It is presumed that if a person attends these courses he may be eligible for VA financial support. However, some people are unable to attend these courses by virtue of shift work. In lieu of actual physical attendance these shift workers are interested in correspondence courses. The question then arises will the VA pay for these correspondence courses, and can a person initiate benefits under the VA educational entitlement by beginning through correspondence courses.

3. If KUBARK feels that the courses undertaken will benefit the organization will Office of Training reimburse for the difference between VA entitlement and actual cost of the course??
